DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1-3, the inconsistency between the language in the preamble “a tool” and certain portions of the body of the claim such as “a sheath, an electrical cable, a spaced pair of insulated power conducting wires, a ground wire . . . , etc.” renders the scope of the claim vague and indefinite because it is unclear if the intent is to claim either the subcombination alone or the combination. The applicant is asked to please clarify what subject matter the claim is intended to be drawn to, i.e., the subcombination alone or the combination of the “a tool” and “a sheath, an electrical cable, a spaced pair of insulated power conducting wires, a ground wire . . . , etc.”, where the language of the claim is to be amended to be consistent with this intent. The reader understands that the applicant intended to claim the subcombination alone.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3729

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brimmer (US 5,669,132).

Brimmer discloses in Figs. 1-5 all the claimed limitations.

Conclusion

5. **Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.**
